

Work Experience

- **ORBCOM** Porto, Portugal
Software Engineer *November 2013 - Present*
 - Responsible for the ASP.NET MVC and Umbraco development as well as mentoring interns on both technologies.
 - Supported a remote project, currently stable, with patches and several improvements, using ASP.NET MVC and Entity Framework.
 - Built websites using Umbraco, JavaScript and SASS for several clients.
 - Recently have done a series of in-house ASP.NET MVC hands-on for my colleagues.
 - Responsible for the development of a 'standard' e-commerce solution using Umbraco and a custom version of Merchello.
- **Unicer** Porto, Portugal
Lead Umbraco Developer *January 2014 - December 2014*
 - Part of a team responsible for building modules and launching websites based on the Carlsberg Pegasus project.
 - Launched three core websites: Super Bock, Água das Pedras and Carlsberg Where is the Party.
 - Responsibilities include specification, design, development and testing of the Unicer core modules, as well as release engineering and mentoring of other team members.
 - Contributed in several ways to Umbraco as a Service.
- **ORBCOM** Porto, Portugal
Intern Software Engineer *February 2013 - October 2013*
 - Part of a team responsible for design and development of both backoffice and a tourism mobile app.
 - As a consultant I was responsible for specification, design, development and testing of an industrial application with several requests per second, as well as integration and reports.
- **Imaginasoft HS** Porto, Portugal
Intern Software Engineer *February 2012 - July 2012*
 - Part of a team responsible for development and testing of a healthcare solution.

Education

- **Polytechnic Institute Of Cávado And Ave** Barcelos, Portugal
Licentiate in Health Informatics *2009 - 2012*
 - Internship at Imaginasoft HS
